## CAPE COD REGIONAL TRANSIT AUTHORITY

BARNSTABLE BOURNE BREWSTER CHATHAM DENNIS EASTHAM FALMOUTH HARWICH MASHPEE ORLEANS PROVINCETOWN SANDWICH TRURO WELLFLEET YARMOUTH

---

December 21, 2010

Ms. Beth L. Sturtevant, President  
CCB, Inc. Construction Services  
65 Bradley Drive  
Westbrook, ME 04092

Dear Ms. Sturtevant:

On behalf of the Cape Cod Regional Transit Authority, as well as from me personally, I would like to take this opportunity to thank you, and all at CCB, Inc. who worked with us to install the first wind turbine funded by the Federal Transit Administration at any transit property in the United States.

As a public transit agency we are very conscious of our obligation to provide not only safe, cost-effective, and timely services, but to also fulfill our duty to ensure that our operations are environmentally responsible. As the first in the nation to utilize wind energy for a Transit Operations and Maintenance Center we are proud to have taken the lead in that responsibility. This could not have happened, however, without the professional, competent and diligent assistance of your firm.

I would like to especially note two individuals who, on a daily basis, guided our project to its successful Commissioning on December 6, 2010. They are Al Bricket, CCB Project Superintendent, and Nate Roberts, Project Manager. On both a personal and professional level Al and Nate were in every respect a pleasure to work with, responsive to our operational requirements, and technically proficient. Throughout the process they kept us informed and aware at each step in the installation so that we were able to minimize the impact on our public transit services.

Please feel free to call on me at any time in the event other prospective customers would like a reference for your organization. Please also extend to your crew, and especially to Nate and Al, our sincerest appreciation for a job well done!

Most sincerely yours,

Paul E. Keith  
CCRTA Project Manager
